Liquid
FILTER BAGS

Economical filtration for a wide array of applications. Highly controlled manufacturing procedures ensure consistent quality and no contamination. The unique bag designs provide added strength and avoids risk of bypass. Our filter bags will fit all industry-standard bag housings.

APPLICATIONS

- Automotive
- Commercial
- General Industrial
- Paints, Inks, Coatings
- Water

REPLACEMENT BAGS AVAILABLE FOR:

American Felt™
Commercial™
Cuno®
Filter Specialists™ (FSI)
Filtration Systems™
GAF Filter Systems™
Plenty™
Ronnigen-Petter™
Rosedale™
Strainrite™

FEATURES

- Available medias range from 1 to 1500 microns
- Heavy-duty handle for easy installation and removal
- Wide array of media fibers to meet needed temperature and micron specifications
- Bag finish or covers available for strict migration requirements
- OEM replacement ring styles
- Multi-layered filtering capabilities for higher dirt-holding capacities and fewer change-outs
- Dimensions range from 4.12-inch diameter × 8-inch length thru 9-inch diameter × 32-inch length

BAG SPECIFICATIONS

Model No.	Bag Size	Length (inches)	Diameter (inches)	Surface Area (sq. ft.)
44-6	#3	8	4.12	.5
44-12	#4	14	4.12	1.0
66-12	#7	15	5.62	1.3
66-18	#8	21	5.62	2.0
66-30	#9	32	5.62	3.4
88-15	#1	16.5	7.06	2.0
88-15	#1 inner	14.5	5.75	1.6
88-30	#2	32	7.06	4.4
88-30	#2 inner	30	5.75	3.6
M88-30-OEM	#12	30	8.00	5.5
Multi-Rounds	#2	32	7.06	4.4

MICRON RATINGS PERFORMANCE

Fiber	Micron Rating																Temp
	1	5	10	15	25	50	75	100	150	200	250	300	400	600	800	1500	
Felt, Nomex (HT)		•	•	•	•			•									450°F (232.2°C)
Felt, Polyester (KE)	•	•	•	•	•	•	•	•		•							250°F (121.1°C)
Felt, Polypropylene (KO)	•	•	•		•	•		•									200°F (93.3°C)
Monofilament Mesh, Nylon (NMO)		•	•		•	•	•	•	•	•	•	•	•	•	•		250°F (121.1°C)
Monofilament, Polyester (KEMO)		•	•		•	•	•	•	•	•	•	•	•	•	•		250°F (121.1°C)
Monofilament Mesh, Polypropylene (KOMO)											•	•	•	•	•		200°F (93.3°C)
Multifilament Mesh, Nylon (NM)								•									250°F (121.1°C)
Multifilament Mesh, Polyester (KEM)*								•	•	•	•		•	•	•	•	250°F (121.1°C)
Oil Removal (OR)					•												200°F (93.3°C)

*Multifilament Polyester also available in 125, 1000 and 1500 microns.*
